Pennsylvania Railroad.

"The Route is the Thing."

Any American Railway Guide of theatrical routes is far from complete if mention of the Pennsylvania Railroad System is omitted.

It is like the play of Hamlet with Hamlet left out.

The Pennsylvania Railroad, with its magnificent and comprehensive system and its far-reaching connections, stretching out into every quarter of the land, appeals in the strongest manner to the judgment of every theatrical manager who conducts a company on the road. In the first place, the Pennsylvania Railroad connects all the big cities of the country by lines of steel. The smaller cities and towns are like notches cut on the main stem or the branches.

The Pennsylvania Railroad is the most substantially built, the best protected, and the best equipped railroad in this country of ours.

The Pennsylvania Railroad is the best line for theatrical people, because its equipment for this particular line of traffic is complete, and its superior facilities offer better service and more satisfactory accommodations.

The Pennsylvania Railroad made the greatest theatrical movement in history, when in June, 1876, it carried by special train, Jarrett & Palmer's Company of players from New York to San Francisco in eighty-four hours and seventeen minutes.

The Pennsylvania Railroad is equal to any emergency that can arise in the handling of theatrical traffic.

Therefore it is the Star Line of America.

Its representatives are :

SAM'L CARPENTER, Eastern Passenger Agent.

W. W. LORD, Jr., Assistant Eastern Passenger Agent, 1126 Broadway

A Word from the Publisher.

IN placing the second volume of the GUIDE for 1897-'98 before the theatrical profession and general public, the publisher has made every effort to compile a collection of theatrical business details and information sufficiently reliable to constitute an authoritative book of reference.

Errors and imperfections in a work of this kind are caused more often by the neglect and thoughtlessness of managers of theatres who do not exercise sufficient care in furnishing details requested, or who labor under the impression that information given for one year's publication will stand good for evermore; without regard to changes that may occur in their theatres, or in details asked for publication, than through the fault of the compiler.

Perseverance and unlimited expense have been exerted to overcome this obstacle, and the publisher hopes he has succeeded in gathering every detail possible to obtain, up to the time of the book going to print.

He thanks his many business friends for their valuable aid, the advertisers for their liberal patronage, and the theatrical profession generally for their kindly support.

1897 JULIUS CANN'S OFFICIAL GUIDE 1897 THEATRICAL

Copyright Law of the United States.

Directions for securing copyright under the Revised Acts of Congress, including the provisions for foreign copyright, by Act of March 3, 1891.

Section 4,962 of the Revised Statutes of the United States, in force December 1, 1873, as amended by the act of June 18, 1874, as amended by the act of March 3, 1891, provides that the author, inventor, designer or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph or negative thereof, or of a painting, drawing, chromo, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person, shall, upon complying with the provisions of this chapter, have the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing and vending the same; and, in the case of a dramatic composition, of publicly performing or representing it, or causing it to be performed or represented by others. And authors or their assigns shall have exclusive right to dramatize or translate any of their works for which copyright shall have been obtained under the laws of the United States.

PRINTED TITLE REQUIRED.

A "printed" copy of the title of the book, map, chart, dramatic or musical composition, engraving, cut, print, photograph or chromo, or a "description" of the painting, drawing, statue, statuary, or model or design for a work of the fine arts, for which copyright is desired, must be delivered to the Librarian of Congress, or deposited in the mail, within the United States, "prepaid," addressed "Librarian of Congress, Washington, D.C." This must be done on or before day of publication in this or any foreign country.

The "printed title" required may be a copy of the title-page of such publications as have title-pages. In other cases, the title must be printed expressly for copyright entry, with name of claimant of copyright. The style of type is immaterial, and the print of a typewriter will be accepted. But a separate title is required for each entry, and "each" title must be printed on paper as large as commercial note. The title of a "periodical" must include the date and number; and each number of a periodical requires a separate entry of copyright. Blank forms of application are furnished to applicants.

FEES.

The legal fee for "recording" each copyright claim is 50 cents, and for a "copy" of this record (or certificate of copyright under the seal of the office) an additional fee of 50 cents is required, making \$1, if certificate is wanted, which will be mailed as soon as reached in the records. No money is to be placed in any package of books, music or other publications. A bank check to order avoids all risk. In the case of publications which are the production of persons not citizens or residents of the United States, the fee for recording is \$1, and 50 cents additional for a copy of the record. Certificates covering more than one entry in one certificate are not issued. Bank checks, money orders and currency only taken for fees. No postage stamps received.

Not later than the day of publication in this country or abroad, two complete copies of the best edition of each book or article must be delivered, or deposited in the mail within the United States, addressed "Librarian of Congress, Washington, D. C.," to perfect the copyright.

The freight or postage must be paid, or the publications enclosed in parcels covered by printed penalty-labels, furnished by the Librarian, in which case they will come free by mail ("not express"), without limit of weight, according to rulings of the Post-Office Department. Books must be printed from type set in the United States or plates made therefrom; photographs from negatives made in the United States; chromos and lithographs from drawings on stone or transfers therefrom made in the United States. Without the deposit of copies above required, the copyright is void, and a penalty of \$25 is incurred. No copy is required to be deposited elsewhere.

The law requires one copy of each new edition wherein any substantial changes are made to be deposited with the Librarian of Congress.

NOTICE OF COPYRIGHT.

No copyright is valid unless notice is given by inserting in every copy published, on the title-page or the page following, if it be a book; or if a map, chart, musical composition, print, cut, engraving, photograph, painting, drawing, chromo, statue, statuary, or model or design intended to be perfected as a work of the fine arts, by inscribing upon some portion thereof, or on the substance of which the same is mounted, the following words, viz.: "Entered according to act of Congress, in the year —, by —, in the office of the Librarian of Congress, at Washington," at the option of the person entering the copyright, the words: "Copyright, 18—, by—."

The law imposes a penalty of \$100 upon any person who has not obtained copyright who shall insert the notice, "Entered according to act of Congress," or "Copyright," etc., or words of the same import, in or upon any book or other article.

TRANSLATIONS.

The copyright law secures to authors and their assigns the exclusive right to translate or to dramatize any of their works; no notice is required to enforce this right.

DURATION OF COPYRIGHT.

The original term of copyright runs for twenty-eight years. Within six months before the end of that time, the author or designer, or his widow or children, may secure a renewal for the further term of fourteen years, making forty-two in all.

RENEWALS.

Application of renewal must be accompanied by printed title and fee; and by explicit statement of ownership, in the case of the author, or of relationship, in the case of his heirs, and must state definitely the date and place of entry of the original copyright. Within two months from date of renewal the record thereof must be advertised in an American newspaper for four weeks.

TIME OF PUBLICATION.

The time of publication is not limited by any law or regulation, but the courts have held that it shall take place "within a reasonable time." A copyright may be secured for a projected as well as for a completed work. But the law provides for no " caveat " or notice of interference—only for actual entry of title.

ASSIGNMENTS.

Copyrights are assignable by any instrument of writing. Such assignment, to be

valid, is to be recorded in the office of the Librarian of Congress within sixty days from execution. The fee for this record and certificate is \$1, and for a certified copy of any record of assignment \$1.

A copy of the record (or duplicate certificate) of any copyright entry will be furnished, under seal of the office, at the rate of 50 cents each.

SERIALS OR SEPARATE PUBLICATIONS.

In the case of books published in more than one volume, or of periodicals published in numbers, or of engravings, photographs or other articles published with variations, a copyright must be entered for each volume or part of a book, or number of a periodical, or variety, as to style, title or inscription, of any other article. To "complete" the copyright on a book published serially in a periodical, two copies of each serial part, as well as of the complete work (if published separately), should be deposited.

WORKS OF ART.

To secure copyright for a painting, statue, or model or design intended to be perfected as a work of the fine arts, a definite title and description must accompany the application for copyright, and a mounted photograph of the same, as large as "cabinet size," mailed to the Librarian of Congress not later than the day of publication of the work or design. The fine arts, for copyright purposes, include only painting and sculpture, and articles of merely ornamental and decorative art should be sent to the Patent Office, as subjects for Design Patents.

TRADE-MARKS.

Copyrights cannot be granted upon trade-marks, nor upon names of companies, libraries or articles, nor upon an idea or device, nor upon prints or labels intended to be used for any article of manufacture. If protection for such names or labels is desired, application must be made to the Patent Office, where they are registered, if admitted, at a fee of \$6 for labels and \$25 for trade-marks.

FOREIGN AUTHORS.

The provisions as to copyright entry in the United States by foreign authors, etc., by act of Congress approved March 3, 1891 (which took effect July 1, 1891), are the same as the foregoing, except as to productions of persons not citizens or residents, which must cover return postages, and are \$1 for entry, or \$1.50 for entry and certificate of entry (equivalent to 4s. 6d. or 6s. 7d.). All publications must be delivered to the Librarian at Washington free of charge. The fee penalty-labels cannot be used outside of the United States.

The rights of the citizens or subjects of a foreign nation to copyright in the United States extend by Presidential proclamations to Great Britain, France, Belgium, Switzerland, Germany, Italy, Spain, Denmark, Portugal, Mexico and Chile, and Americans can secure copyright in those countries. For this direct arrangements must be made abroad. The Librarian of Congress cannot take charge of any copyright business.

Every applicant for a copyright should state distinctly the full name and residence of the claimant, whether book or other publication, and whether the right is claimed as author, designer or proprietor. No affidavit or witness to the application is required.

CONDITIONS AS TO COPYRIGHT FOR AMERICAN CITIZENS IN FOREIGN COUNTRIES.

International copyright arrangements between the United States and foreign countries now include Great Britain and her possessions, France, Germany, Italy, Spain, Portugal, Belgium, Denmark, Switzerland, Mexico and Chile.

For an American citizen to secure copyright in Great Britain three conditions are necessary:

First—The title should be entered at Stationers' Hall, London, the fee for which is 5 shillings sterling, and 5 shillings additional if a certified copy of entry is required.

Second—The work must be published in Great Britain or in her dominions simultaneously with its publication in the United States.

Third—Five copies of the publication are required—one for the British Museum and four on demand of the Company of Stationers for four other libraries.

Copyright may be secured in France by a foreigner by depositing two copies of the publication at the Ministry of the Interior at Paris. No fee or entry of title required.

To secure copyright in Belgium a foreigner may register his work at the Department of Agriculture, Industry and Public Works at Brussels.

In Switzerland, register of title at the Department of Commerce and Industry at Bern is optional, not obligatory; fee two francs. If registered, deposit of one copy is required.

Copyright in Canada is to be registered with the Minister of Agriculture at Ottawa, fee \$1 for registry and 50 cents for certificate, and the work to be published in Canada and two copies deposited.

Infringement of Copyright.

The Librarian of Congress makes the following statement to inquire as to remedies for infringement of copyright:

No question concerning the validity of a copyright can be determined under our laws by any other authority than a United States court.

This office has no discretion or authority to refuse any application for a copyright coming within the provisions of the law, and all questions as to priority or infringement are purely judicial questions, with which the Librarian has nothing to do. A certificate of copyright is prima facie evidence of an exclusive character, and is highly valuable as the foundation of a legal claim to the property involved in the publication.

As no claim to exclusive property in the contents of a printed book or other article can be enforced under the common law, Congress has very properly provided the guarantees of such property, which are embodied in the "Act to revise, consolidate and amend the statutes relating to patents and copyrights," approved July 8, 1870. If you obtain a copyright under the provisions of this act, you can claim damages from any person infringing your rights by printing or selling the same article; but upon all questions as to what constitutes an infringement, or what measures of damages can be recovered, all parties are left to their proper remedy in the courts of the United States.

An Act Relative to Dramatic and Musical Productions.

To amend Title Sixty, Chapter Three, of the Revised Statutes relating to copyrights.

Be it enacted in the Senate and House of Representatives of the United States of America, in Congress assembled, That section forty-nine hundred and sixty-six of the Revised Statutes be, and the same is hereby, amended so as to read as follows:

Sec. 4066. Any person publicly performing or representing any dramatic or musical composition for which a copyright has been obtained, without the consent of the proprietor of said dramatic or musical composition or his heirs or assigns, shall be liable for damages therefor, such damages in all cases to be assessed at such sum not less than one hundred dollars for the first and fifty dollars for every subsequent performance as to the court shall appear to be just. If the unlawful performance and representation be willful and for profit, such person or persons shall be guilty of a misdemeanor, and upon conviction be imprisoned for a period not exceeding one year. Any injunction that may be granted upon hearing after notice to the defendant by any Circuit Court of the United States, or by a judge thereof, restraining and enjoining the performance or representation of any such dramatic or musical composition, may be served on the parties against whom such injunction may be granted anywhere in the United States, and shall be operative and may be enforced by proceedings to punish for contempt or otherwise by any other Circuit Court or judge in the United States; but the defendants in said action, or any or either of them, may make a motion in any other circuit in which he or they may be engaged in performing or representing said dramatic or musical composition, to dissolve or set aside the said injunction upon such reasonable notice to the plaintiff as the Circuit Court or the judge before whom said motion shall be made shall deem proper; service of said motion to be made on the plaintiff in person or on his attorneys in the action. The Circuit Courts or judges thereof shall have jurisdiction to enforce said injunction and to hear and determine a motion to dissolve the same, as herein provided, as fully as if the action were

pending or brought in the Circuit in which said motion is made.

The clerk of the court, or judge granting the injunction, shall, when required to do so by the court hearing the application to dissolve or enforce said injunction, transmit without delay to said court a certified copy of all the papers on which the said injunction was granted that are on file in his office.

Passed the Senate May 20, 1896.

Attest: WM. R. COX, Secretary.

House also.

Signed by President, January 5, 1897.

Sec. 596. Tariff Act 1890-1894 is as follows, and should be adhered to as closely as possible. The indications are that the new tariff bill, which is now pending before Congress, will be practically the same as the present law:

Professional books, implements, instruments and tools of trade, occupation or employment, in the actual possession at the time of persons arriving in the United States; but this exemption shall not be construed to include machinery or other articles imported for use in any manufacturing establishment, or for any other person or persons, or for sale, nor shall it be construed to include theatrical scenery, properties and apparel, but such articles brought by proprietors or managers of theatrical exhibitions arriving from abroad for temporary use by them in such exhibitions, and not for any other person, and not for sale, and which have been used by them abroad, shall be admitted free of duty under such regulations as the Secretary of the Treasury may prescribe; but bonds shall be given for the payment to the United States of such duties as may be imposed by law upon any and all such articles as shall not be exported within six months after such importation; provided, that the Secretary of the Treasury may in his discretion extend such a period for a further term of six months in case application shall be made therefor.

Duties upon Theatrical Properties, Costumes, etc.

The following conditions must be observed to bring Theatrical Properties, Costumes, etc., into the United States:

The Customs Laws permit the entry "Free of Duty" of Scenery, Properties and Costumes [brought by Proprietors or Managers of Theatrical Exhibitions, arriving from abroad for temporary use in this country, and which have been used abroad by them] under bond, that they will be exported within six months, although this period is often extended by the Secretary of the Treasury.

Scenery should be numbered with serial numbers, 1, 2, 3, 4, etc., and described in the invoice or list opposite the serial number.

Properties, when packed in cases, should be numbered, and the invoice, or list, should

state plainly the contents of each case by number; when not packed in cases or crates, serial numbers should be used same as on Scenery.

Costumes should be packed in cases, baskets or trunks, marked and numbered with serial number, and the list, or invoice, should state the number and style of costumes in each package and the value.

Costumes are not entitled to free entry under this law, unless they have been used abroad by the company importing them.

Wearing apparel belonging to the members of the company should be kept entirely separate from the costumes, and not mentioned in the list or invoice, as no duty will be charged on wearing apparel accompanying the owner.

NEW YORK THEATRES.

Past and Present.

It is a conceded fact that New York City boasts more palatial theatres than any other city in the world.

Broadway, the main artery of the metropolis, through which pours the life-blood of the great city, and into which all lesser ones flow, changes totally in character as Fourteenth street is reached.

With the exception of the historical Star Theatre and the People's Theatre (on the Bowery), all the former well-known playhouses have disappeared, and given place to great mercantile emporiums.

The center of New York has moved northward, and after leaving Keith's (Union Square) Theatre, Academy of Music, Tony Pastor's and the Fourteenth Street Theatres, the next indication of amusements is found in Twenty-third street. But before guiding the visitor into this realm, we desire to devote a word or two to the above mentioned houses.

The Star, formerly "Wallack's" Theatre, is on the east side of Broadway, at the corner of Thirteenth street. This house is now occupied by combinations, charging popular prices; but at one time stood pre-eminent among all the playhouses of the metropolis for its artistic dramatic productions and magnificent stock company, at the head of which was that famous actor-manager, Lester Wallack.

To the east, on Fourteenth street, is Keith's, formerly Shook & Palmer's Union Square Theatre, which, under the latter name, up to a few years ago, was one of the most prominent theatres for productions, is now devoted to continuous performances. One block further east, on the opposite side of the street, on the corner of Irving place, is the famous old Academy of Music, where, in years gone by, the patrons of grand opera revelled in the delights of the world's greatest songbirds. This house, with

its capacious auditorium and enormous stage, is now devoted to melodrama and spectacle.

Adjoining the rear of the Academy of Music, on Fourteenth street, is Tony Pastor's Vaudeville Theatre, where a continuous performance of the better class of specialty artists is the menu served by its indefatigable manager.

Turning about again to Irving place, we come in sight of the most prominent German theatre that the city boasts of, the Irving Place Theatre, where the best German company in the United States can be seen. Once more back to Fourteenth street, and going westward beyond Sixth avenue, is the Fourteenth Street Theatre, a house at one time famous under the name of the Lyceum, whose manager and lessee was the great romantic actor, Charles Fechter. J. Wesley Rosenquest now conducts this house as a first-class, popular-price combination house, wherein he has made many important productions. Continuing on Fourteenth street westward as far as Eighth avenue, and going northward on that busy thoroughfare as far as Twenty-third street, we find on the northwest corner of these two streets, the Grand Opera House, erected by Samuel Pike, and afterwards purchased by Jay Gould, and managed by the redoubtable Col. Jim Fisk. This theatre has been recently remodeled, and is now one of the city's most popular playhouses for combinations. It is still owned by the Gould estate, and managed by Augustus Pitou.

Eastward on Twenty-third street, midway between Sixth and Seventh avenues, we pass Proctor's popular-price vaudeville theatre, with its continuous performances of high-class vaudeville, opera, etc. Another block to the east, on the same side of the street, is located the Eden Musee (the American Madame Taussaud's),

where an interesting exhibition of figures and groups is always in evidence.

Strolling back to Broadway, up one block, turning to the left into Twenty-fourth street, a few steps only will take us to Hoyt's cozy little Madison Square Theatre. This is one of the homes of farce comedy, as conceived and exploited by the clever wit and writer, Charles E. Hoyt, and authors of his class; though, in bygone years, during the administration of the brothers Mallory and Charles and Daniel Frohman, respectively, this house was noted for the production of pastoral and society plays.

Wheeling about, and crossing Madison Square Park, by going as far east on Twenty-fourth street as Fourth avenue, a sudden turn to the right, and we are facing the modest front of the popular Lyceum Theatre, managed by Daniel Frohman. This house is small, but elegant and cozy, and its fame is built quite as much upon the particular clientele it has as upon the character of the plays presented there by its excellent stock company.

On Madison avenue, between Twenty-sixth and Twenty-seventh streets, may be seen that exquisite and colossal piece of Spanish architecture, the great Madison Square Garden. This vast building occupies the entire square bounded by Madison avenue, Fourth avenue, Twenty-sixth and Twenty-seventh streets. It is unequalled by any similar structure in the world, either as regards size, beauty or general appointments. The northwest corner of this building is occupied by the beautiful Garden Theatre, of which Charles Frohman is the manager, and where dramatic stars of the highest order constantly appear.

Returning on Twenty-seventh street to Broadway, and up one block, we see, on the northwest corner of Twenty-eighth street and Broadway, Miner's Fifth Avenue Theatre; and a block beyond that, on the same side, Webber & Fields' Music

Hall, on the way to Daly's Theatre, noted for its excellent and artistic productions.

Crossing to the east side of Broadway, on the corner of Thirtieth street is Wallack's Theatre, erected by the late Lester Wallack, and occupied by him until his death. Immediately opposite, on Broadway, is the Bijou, a house devoted to comic opera and specialty farce comedy of the broader school.

We continue our ramble, and stop at the Manhattan (formerly the Standard) on the west side of Broadway, near Thirty-third street. This theatre is devoted to combinations and stars. Further up Broadway, to Thirty-fourth street, we approach Koster & Bial's. This is one of the newest and most beautiful places of amusement in the city, and was erected by Oscar Hammerstein, who intended it for English grand opera; only to be, however, converted to its present use, as a thoroughly first-class music hall, after failing in its original intent.

Returning to Broadway, one block further, on Thirty-fifth street, east of Sixth avenue, we find the Garrick Theatre, where, under the management of Charles Frohman, high-class productions of comedy and drama prevail. Again to the west side of Broadway, at the corner of Thirty-fifth street, the Herald Square Theatre is located.

The newer houses are grouped together further up on Broadway in the following order: The Knickerbocker, on the east side, corner of Thirty-eighth street; a beautiful and absolutely fireproof building, where the most famous foreign stars and the best light-opera organizations may be seen. Adjoining this, on the corner of Thirty-ninth street, is the quaint Casino, the home of opera comique, with its delightful roof-garden. On the opposite side of Broadway, bounded by Thirty-ninth and Fortieth streets and Seventh avenue, stands the handsome Metropolitan Opera House. Its interior

NEW YORK THEATRES—Continued.

is considered the most beautiful of any opera house in the world. It is devoted exclusively to grand opera. Immediately opposite, on the corner of Fortieth street, is the Empire Theatre, another altogether modern fireproof building of exquisite interior. It is managed by Charles Frohman, and during its brief existence of four years, has presented more successful dramatic productions and society comedies of the higher order than any theatre known to the annals of the New York stage. The productions of this house are invariably perfect in every detail.

On the west side of Broadway, at the corner of Forty-first street is the Broadway Theatre, a fine, capacious house, mainly used for comic opera performances. On Forty-second street and Eighth avenue is located the American Theatre, a beautiful new structure, devoted to combinations of the better class.

With a final turn to Broadway, and continuing up that thoroughfare to Forty-

fourth street, we face Oscar Hammerstein's latest innovation, The Olympia. This is undoubtedly the most gorgeous place of amusement in existence, and includes a massive music hall, a beautiful theatre, a cozy concert hall and the most unique roof-garden ever conceived.

Cutting through Forty-fourth street to Lexington avenue, and turning down that avenue, between Forty-first and Forty-second street, is the Murray Hill Theatre, built during the present year, and devoted to combinations, at popular prices.

This list includes the principal downtown theatres, besides which Carnegie Hall, located at Fifty-seventh street, near Seventh avenue; the Harlem Opera House, a beautiful theatre, in Harlem, playing all the first-class attractions; the Columbus Theatre (also located in Harlem), a popular-price house, and the Metropolis (not yet completed), located at One Hundred and Forty-third street and Third avenue, constitute a chain of theatres second to no city in the world.

1897 JULIUS CAHN'S OFFICIAL THEATRICAL GUIDE 1897

No line in the world equals the New York Central in the comfort and speed of its trains and the beauty and variety of its scenery.

In the opinion of a prominent English expert, the New York Central possesses the most perfect system of block signals in the world.

8¼ hours, New York to Buffalo; 9¼ hours, New York to Niagara Falls; 24 hours, New York to Chicago; 21¼ hours, New York to Cincinnati; 29¼ hours, New York to St. Louis, via the New York Central.

The most comfortable to St. Louis is the New York Central.

The best line to Cincinnati is the New York Central, through Buffalo and Cleveland.

The direct line to Niagara Falls is the New York Central.

Traveling by the New York Central, you start from the center of the city of New York, and reach the center of every important city in the country.

P. J. McDONALD,
Scenery and
Mechanical Effects,

Office :
Grand Opera House, New York City, N. Y.

I desire to call your attention to the fact that I have largely increased my facilities for the manufacturing of all classes of stage work and by the introduction of new machinery I am enabled to execute all orders promptly, and to furnish the best possible work at the lowest figures.

I am prepared to furnish at the shortest notice and at satisfactory prices, scenery and mechanical effects adapted to the requirements of any stage.

For theatres and pleasure resorts that change the entire outfit from season to season, I can furnish a special grade of suitable materials at satisfactory prices.

All work contracted for is done under my personal supervision, and I guarantee its durability.

I Have Made Money

For other people, to whom I can refer you, and I am very sure that

I Can Make Money For You.

How? I made a full scenic production on frames and baltened drops, in the old style, of "The Prisoner of Zenda," which cost the usual excessive transfer rates into a town in Indiana. I made a duplicate production of "The Prisoner of Zenda" six months later, giving equal satisfaction, which cost nothing to take into the same town. The last production was packed in wardrobe trunks, and was painted in SEAVEY'S FOLDING PROCESS—PATENTED Sept. 21st, 1886. I, myself, packed the first act of "Darkest Russia," a complete palace, four drops, in a trunk, checked it from New York to Yonkers, costing transportation of self only. My experience enables me to obtain effects not possible by others. Ask Messrs. Sidney R. Ellis, Robert Downing, C. E. Callahan or David Hayman.

YOU CAN DRAW

and please your audiences and the profession by supplying your stage with Papier Maché Props. I make everything to embellish your settings, including handsome and Rustic Furniture, Mantles and Ornaments, Clocks, Plaques, Shields, etc.

YOU CAN SEE

here, as in no other establishment, your scene complete, set up on my stage, beautifully lighted, and photographed for advertising purposes.

I CAN ILLUSTRATE

your songs. Superior facilities, suitable scenery, immense stage and skylights and latest photographic apparatus.

YOU CAN HIRE

at a moment's notice, scenes, set pieces and properties to try a play or give a benefit. Backings, maskings and frames for Tableaux—town or country.

"Look at the Map"

The Big Circuits

may be conveniently covered over the Pennsylvania Lines. Theatrical managers need not grow old worrying about getting their people through in time if they route them over these lines. Companies appreciate a trip over the Pennsylvania Route. They do better work and less "kicking" when they travel in good style and get through on time. The Pennsylvania is an "angel" in that respect. Experienced people in the profession know this. Managers should communicate with representatives of the Passenger Department of the Pennsylvania Lines before shaping routes. It will pay.

The New South.
Quaint, Historic
New Orleans.

Land of Sunshine
and Flowers,
Music and Song.

NEW ST. CHARLES HOTEL.

With the opening of the New St. Charles Hotel, New Orleans resumes its natural position as the Mecca of tourists seeking health, recreation and pleasure.

With a climate as balmy and salubrious as either Florida or California are the attractions of a large city—its points of historic interest covering more than two centuries—its French Opera, theatres, racing, hunting and fishing grounds.

The New St. Charles is one of the latest and one of the best Hotels in the country. It is **absolutely fire-proof**, centrally located, has 400 parlors and bed rooms, single or en suite; 120 private bath rooms, and every known appliance for comfort and convenience.

The drinking water is filtered, distilled and aerated, and the ice made from it—both perfectly pure.

An open-air promenade on parlor and dining-room floor gives a delightful lounging place among tropical plants and shrubbery in sunshine or shade.

Kept on American plan, and first-class in every respect.

Transient rates from \$4.00 per day upwards. Liberal discount by the week, month or season. Special rates to commercial travelers and the theatrical profession.

THE BURNETT HOUSE, TOLEDO, O.

Rate, \$2.00 and \$2.50 per day.

The only strictly first-class hotel in Toledo, with all modern improvements, that makes a special rate to Advance Men and Theatrical People. One hundred rooms, fronting on three streets; no dark rooms. Fine Passenger Elevator, Electric Lights and Bells and Return Calls. Electric Cars from all depots pass the door. The unequalled advantages of central location, liberal management, modern appointments, good service and perfect cuisine, has made the Burnett a desirable home for Theatrical People while in Toledo.

D. McGEE, Proprietor.

HULBERT'S

Grand Opera House,

In Marathon, Cortlandt Co., N. Y..

Is new, commodious, and conspicuous on a central corner, with all the conveniences. The hall is wide, bringing the audience up to the stage; making it easy for the voice in speaking or singing, giving volume and tone to instrumental music, and will seat 600 people. The village has 1,400 inhabitants, on the Delaware, Lackawanna and Western Railroad. George A. Hulbert is the owner and manager. Rental, or percentage will be reasonable. Write to him *personally* and receive a prompt and satisfactory answer.

MEXICO.

Mexico is undoubtedly a coming theatrical field for recognized and worthy operatic, spectacular and musical attractions, as the theatre-goers are appreciative and pay liberally for meritorious entertainments. The theatres are now mostly controlled by sharing managers, the newspapers generous with space, and the railroads make rates of 1½ to 2 cents a mile for parties of five or more, and are controlled and operated by Americans of broad and liberal views. The duty on printing taken into Mexico from the United States has lately been withdrawn, although now in a few cities a small tax or nominal charge is made for the privilege of billing and advertising. The laws of Mexico are very rigid regarding theatrical advertising; every scene and act must be produced as represented, failure

of which is subject to a heavy fine by the Governor of the city.
